Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is responsive to amendment filed 11/10/2005.

Response to Amendment

The examiner has acknowledged the new abstract and the previously presented claims 1 – 23.

Response to Arguments

Applicant's arguments, see amendment, filed on 11/10/2005, with respect to claims 1 - 23 have been fully considered and are persuasive. The rejection of claims 1 – 3, 10, 14 – 16, and 23 has been withdrawn. However, after further review, claims 15 – 22 are rejected under 35 U.S.C. 101.

Specification

The abstract of the disclosure is objected to because the term " The present invention " (line 2) is redundant. It is suggested to start the abstract with --- Methods for automatically starting a node ----.

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 15 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Regarding claim 15, "a computer program for starting a node in a cluster computer system embodied in a **computer readable medium**" is not limited to embodiments which fall within a statutory category. Applicant discloses such **computer readable medium** as being a **signal-bearing media**. As such, the claim is not limited to statutory subject matter and is therefore non-statutory.

Claims 16 – 22 are necessarily rejected as being dependent upon the rejection of claim 15.

Allowable Subject Matter

Claims 1 – 14, and 23 are allowed.
